Biodiversity is not evenly distributed, rather it varies greatly across the globe as well as within regions. Among other factors, the diversity of all living things depends on temperature, precipitation, altitude, soils, geography and the presence of other species. The study of the spatial distribution of organisms, species and ecosystems, is the science of biogeography.

Introduction 'Make your organization more resilient' seems to be the buzz phrase in management practice recently. Practitioner journals or daily newspapers (e.g. Harvard Business Review, Strategy and Business or New York Times) propose how to make organizations more resilient. The concept has recently gained new momentum in high-quality management journals (e.g. Clement and Rivera 2017
