variable and fixed geometry turbocharged. Fuel system. direct injection and HEUI (hydraulic electronic unit injection) Fuel type. Diesel. Output. Power output. 170-350hp (commercial), 375hp military. The Navistar DT engine family is a line of mid-range inline-6 diesel engines.

Navistar DT engine - Wikipedia

2006 IH 4200 VT365 engine. Engine runs smooth but has Very low power from a dead stop and when climbing hills. Only builds 2#'s of boost until the truck gets going and then it slowly goes higher. Exhaust back pressure is about double whatever the boost pressure reads. ICP is fine. Going 50 mph, boost would read 16 and EBP was 27.
